## **Course: Creating a New Team**

### **Objective:**

Provide the trainees with techniques which will facilitate the development & coordination of a new team by focussing on the most important factors in the creation of a team.

### **The trainees will learn how to:**

1. Create a new team.
2. Work as a team where the objectives, behavioural norms, etc, have been designed and approved by the members using a logical & structured method which works with any group of people.
3. Prevent, identify &/or resolve problems which occur during the development of a team.
4. Identify and prevent a range of undesirable behaviours using different techniques.
5. Understand and respect the emotions and ways of behaving of other team while achieving the objectives developed and agreed upon by the group.
6. Achieve effective and elegant solutions..

**Duration:** 2 days (18 hours)
